73	25	FORLI' - CUSERCOLI	floods, landslides	In Forlì the embankment of the Ronco river has been renovated. However, the last part is unusable so, after the bridge over the river, follow the gravel road and turn left until Via Selbagnone. At the roundabout (Forlimpopoli-Fratta-Meldola) take the Provincial Forlimpopoli-Meldola for 900 m, until you meet the original route again. From there, after another 450 m on the provincial road, turn left and go towards Fratta. The route on the Provincial Road takes place on the shoulder: maximum attention is required!!. Otherwise we suggest the S.Martino in Strada variant (points 30-31-32-33-34-35-36 of the Official Guide) up to Meldola. After Meldola do not take the river variant (point 10) but stay on the internal asphalted roads until after S.Colombano (point 11).	2023-09-20
